LabelFlex Inc. Belongs to a Corporation with more than 48 years dedicated to design, printing and conversion of labels and personalized packaging, for any industry. We use the most advanced printing technology to provide labels of all shapes and sizes in full color. We are specialist in design, create and develop of custom tailored labels to meet the needs of the clients, using the highest quality and the best materials in the market, to guarantee 100% to our customers.

We cover a wide range of the most commercial sectors, among others:

- Health and Nutrition
- Wine and Spirits
- Bath and Beauty
- Food and Beverages
- Household Cleaning

We have a specialized department in design, advertising and marketing that performs all packaging engineering, graphic and creative design, pre-printing, digital printing, banner printing.

NILPETER PANORAMA HYBRID

ALWAYS INVESTING IN NEW TECHNOLOGIES
WE HAVE THE CAPACITY TO OFFER YOU:

- Adhesive and Non-Adhesive Labels: This type of label for its infinitive versatility can be adopted to almost any bottle, tube or container to identify food products, beverages, personal care, household cleaning and more.

- In Mold Labels or IML: Since the In Mold (IML) labels are placed on the mold, the label cannot be torn, stained or detached, you can label the product on all 4 sides.

- Shrink Sleeve Labels: They maximize the marketing space in the product pack, by the flexibility in the design, given by the possibility of printing in 360 degrees.

- Adhesive Tape: Customize your adhesive tape with your corporate logo, any type of signage or with the design of your preference.

- Cases and Packings: For any industry, custom folding boxes with special materials and design to suit your needs.

- Digital Printing: It is fast, economical and with excellent quality. Ideal for short, personalized and urgent runs. It provides endless advantages that we can offer you.
